

Homework Calculator

	Outstanding	Good	Adequate	Poor	Score
User interface	All controls are complete and neatly arranged.	Controls are complete, but disorderly.	Most but not all controls are finished.	Not many controls at all are finished.	
Click handler	Converts all values from strings to numeric types and passes them to the function according to convention.	Converts most values, but handles some calculation itself, passes strings to the function, or does not use conventional names.	Allows function to access the text boxes itself.	Does not collect all user input.	
Function	Makes the correct calculation based on well-named positional parameters.	Calculates correctly, but with nondescriptive parameters.	Does not calculate correctly or ignores parameters.	Is missing or is not functional.
